NATAL RETURN

Of the Country's Father Being Observed Appropriately in the Leading Cities.

MRS. FAIRBANK'S HONOR

Horrible Railroad Accident: N. J. Caused by Neglect of Duty.

GERMAN'S RAID INTO CHINA IS OFF

Washington, Feb. 22.—Washington's birthday is being observed today by special exercises in the leading cities of the country. Washington's farewell address was read today in both houses of congress.

Trenton, N. J., Feb. 22.—There

was a disastrous collision last night on the Pennsylvania road near Badentown. The engineer of an accommodation ignored his orders and thus caused the wreck. One of the trains was a passenger, which was crowded. Ten people were killed and fifty injured in the crash and much property lost. The engineer whose neglect caused the collision was fatally hurt.

Washington, Feb. 22.—Mrs. Senator Fairbanks, of Indiana, has been elected president of the Daughters of the Revolution.

Berlin, Feb. 22.—It is semi-officially

stated that the German expedition into China has been abandoned.

TWO CHARGES.

WALTER SMITH, COLORED, IS ACCUSED OF BREAKING INTO TWO CABOOSSES.

Walter Smith, colored, charged with breaking into an Illinois Central caboose, was held to answer on one charge this morning, and a warrant was issued against him for breaking into another car.

He broke into cabooses belonging to both Conductors Harvey and Crow. In default of bond he went to jail on one charge and the other case is set for tomorrow.

THE CANAL TREATY.

RUMORED IN WASHINGTON THAT ENGLAND IS SATISFIED THEREWITH.

Washington, Feb. 22.—A rumor is current here in unusually well-informed circles that the state department has been notified by Ambassador Choate that Great Britain will accept the amendments of the senate to the Hay-Panchoff treaty. The rumor can not be verified at this time.

NEWS AND COMMENT.

Petersburg, Ind., reports a double kidnapping. Two girls were stolen from a farm house by a man and woman.

A church in Cheshire, England, has two inscriptions over one of its doors. The first one reading: "This is the door of heaven;" the second, "This door will be closed during the winter months."

Burial in the cemetery at Sweet Water, Pa., was refused to the body of Ralph J. White, a suicidist and murderer.

Arthur Milloy, of Chicago, lives though he has a bullet lodged in his brains. Physicians who know the case are greatly astonished.

Govs. McMillin, of Tennessee; Jeff Davis, of Arkansas; and Longino, of Mississippi, are members of the same hunting party forty miles below Memphis.

A Paris physician says grip or influenza is a serious cause of appendicitis.

WOMAN TO HANG.

Hannibal, Mo., Feb. 22.—Alice Neesehauer, convicted of the murder of her husband by giving morphine, to secure life insurance, was sentenced to hang Friday, April 12. An appeal has been granted, with leave to file bill of exceptions by June 1. She was not visibly affected.

DEEDS.

W. P. Radd deeded property in the county to D. W. Rudolph, for \$650.

W. R. Holland and E. G. Boone deeded to A. E. Cole for \$212.50, property near Twelfth and Tennessee streets.

CIRCUIT COURT.

The case of Galland Brothers against Hays, Peck & Ward, has been argued before Judge Husbands in circuit court today.

CLOSED LAST NIGHT.

REV. MR. McDONALD'S MEETINGS AT THE FIRST PRESBYTERIAN CHURCH ARE OVER.

Rev. Dr. McDonald closed his meeting at the First Presbyterian church last night. He was called home to some sick people in his church. Large congregations greeted Dr. McDonald from the start, and he was heard with much delight throughout the whole series of sermons. He made many warm friends during his sojourn here. Some solid and substantial people were added to the First church as a result of the meeting.

WILL BE BURIED HERE.

The remains of Mr. James Scott, of Hazelwood, Ballard county, who died yesterday at an advanced age, reached the city at 1 o'clock this afternoon and were laid to rest at Oak Grove. The deceased was an old confederate soldier and father of Mr. Will Scott, of the N., C. and St. L. He was also an uncle of Mr. Robert Reeves, the banker.

THROUGH THE LUNGS

A. C. EMPLOYE AT FULTON SHOT WITH A 44-CALIBRE PISTOL.

It is Supposed a Drunken Man Shooting Promiscuously Fired the Shot—Condition Serious.

Mr. H. R. Robertson, a night clerk in the Illinois Central freight house at Fulton, was brought to the city last night on the "cannon ball" in a serious condition from a pistol wound in the right shoulder.

He had started out of the depot at Fulton about 10:30 o'clock last night when somebody, presumably a drunk man, shooting at random in the dark, fired in his direction and a 44-calibre bullet plowed its way entirely through his body, striking him near the right shoulder and passing through the lungs. The wound was dressed there and he was brought to the city and taken to the railroad hospital, where his condition today is very serious.

Ed Smith, the restaurant keeper, was arrested this morning, charged with doing the shooting. Smith is a young man said to be something of a "bully," and it is alleged was drinking heavily yesterday and openly carrying his pistols about the streets.

Late in the afternoon he was whipped by a man from the country and it is said that this enraged him and in wandering about he probably happened to meet Robertson and shot him.

His trial is set for tomorrow at 10 o'clock.

The name of the man who whipped Smith is Hodgeville, and it is not known whether Smith shot Robertson thinking he was Hodgeville or not.

This afternoon the wounded man was resting as well as well could be expected at the railroad hospital, and if he survives thirty-six hours there will be hopes of his recovery.

Messrs. D. Ghosson and M. O. Payne brought the injured man to Paducah.

ALL FINED FOR FIGHTING.

Berry Hubbard and Nannie Palmer, colored, who engaged in a fight in the Kahn yard a few nights ago, were fined \$20 and costs in Judge Sanders court today. It was at first intended to warrant them for false swearing and malicious cutting.

Will Lucas, colored, who had a fight with Harry Stone, was also fined \$20 and costs.

Steamship Freight With People Goes Down off Golden Gate or San Francisco's Harbor

GREAT MANY LIVES LOST

Of Two Hundred and Fifty on Board Only a Part are Accounted For—Serious Loss.

CAPTAIN'S REPORTED TRAGIC DEATH

San Francisco, Feb. 22.—Steamer Rio Janeiro sunk outside of the Golden Gate in a fog, but under what conditions is not known. It is believed there has been a large loss of life, as not many of the 250 on board have been accounted for as yet. It is rumored that American Consul Wildman and son, who were returning from Hong Kong, were among those who perished. It is reported that Capt. Ward, seeing so many drowning, locked himself in his state room and sank with his ship.

Later—it now seems 150 persons perished by the Rio Janeiro's loss. It is certain Consul Wildman, wife and two children were. The purser, John Rooney, is missing. If he is lost there is no record of the passenger list and the number of victims may never be known.

CHAIN OF EVIDENCE AROUND CUDAHY SUSPECT IS STRENGTHENED.

Omaha, Neb. Feb. 22.—James Callahan, the alleged abductor of Eddy Cudahy, was arraigned in court this morning, charged with robbery, false imprisonment and grand larceny. He pleaded not guilty, and was bound over. Bail was fixed at \$2,500 on each account. Callahan is now in solitary confinement. His hearing is set for Monday.

Other witnesses have added their identification and there seems to be no doubt that Callahan will be connected with the crime. The chain of evidence was strengthened by the statement of Jos. Milander, a saloonkeeper at Sargy's Mills, five miles south of here, who identified Callahan as a man who was around his place last August when the saloon man's watch was stolen. This watch was afterwards traced to Dan Burris in part pay for the house and buggy used in the abduction, and Burris identified Callahan as the man who negotiated the trade.

FRIDAY, FEB. 22, 1901.

When David said "all men are liars" did he expect our George?

The Duke of Devonshire, in an address at London, said the depression in the British iron and steel trades was due to keen American competition.

Foreign exports at New Orleans last year reached a total of \$147,000,000, the largest on record, and an increase over the previous year of \$45,000,000.

The signals this country are making toward Mars are being treated with silent contempt. This is probably because Mars hasn't yet learned the art of flirting.

Another religious sect has been started in New York. They call themselves the Bahists, and follow the teachings of an Attos Effendi, whom they hold to be the son of God.

Major General Young and eight companions of the Thirty-fourth infantry and nine companies of the Thirty-third infantry have sailed from Manila for the United States.

No one opposes Paducah becoming a city of the second class except those who would even care if it was still a village, so long as they could exist. But it was ever thus with some people.

If King Edward is to rule Great Britain it is not too early for him to begin showing his hand. There are already indications that the people propose to rule themselves partially at least.

Mobocracy is becoming the law in Kansas, and for that matter in some other states. The saloon smashing, shooting, rioting, etc., reported from Kansas finds greater evils in the lynchings and murders in other states.

The biggest gambling house in Denver, Col., is run by a woman—Mrs. John Guthrie. All kinds of games are played and a policy shop connected and Mrs. Guthrie is the general manager of the den. Here's a new field for Mrs. Nation when she is through with Kansas.

Mme Petit, the leading woman lawyer of Paris, is the head of a society to taboo kissing under all circumstances. The incentive of the club is better health through the lessening of diseases. Sweethearts and married couples are even to be urged to join the society. There is no joke in this, though the society is a creation of France.

Though murder has been committed and much property destroyed the joint smashing business flourishes in Kansas. Mobocracy promises to grow into a permanency. "To the stars through difficulties," the motto of the state, might, with reason, be changed "To difficulties through the stars," accepting Mrs. Nation, Mrs. Lease, et al., as the stars.

Russia and America won't quarrel about the so-called prohibitory tariffs of each country. They may pass each other just for the pleasure, but in due time they will agree that both perhaps have been too exacting, and all will again be serene. Trade has a wonderful influence, it being the old game of "you tickle me and I'll tickle you," or reciprocity.

The opposition of the Democratic press and members of congress to all the measures of the majority representing the administration at Washington is suggestive alone of a rule or ruin policy and nothing else. Nothing better is ever proposed, but it is a constant objection without the least reason. But this all is not surprising, for it for years has been with Democracy a constant purpose to destroy by preventing an upbuilding if not by tearing down.

Cuba's constitution will not be presented to congress at the present session. It is reported that the instrument is nearly completed, and that the finishing touches are being put upon it. In fact, the Cubans have made about as good speed with their charter as the Americans did with the constitution framed in 1787. The Philadelphia convention was in session about four months, which is pretty longer than the time which has elapsed since the Havana convention opened. If the Cuban constitution is dealt with by congress in December an extra session will be called for it. The indications are that the extra session

POPULATION.

Europe has seen wonderful changes in population in the last one hundred years that have aroused discussion among statesmen of the continent, especially among Frenchmen, who are trying to explain away figures that tell a sorry tale for them.

M. Jules Roche in the Figaro sets forth that the population of Europe in 1801 was 175,000,000. In one century it has increased to 32,000,000. In the area covered by this change in population, wars and diplomacy have ruthlessly robbed one nation and added to another.

In 1801 France had a population of 33,000,000 included in what M. Roche calls "national frontiers." This population was "superior in number, in cohesion, in vigor, to every other nation except Russia." Now, France, with contracted limits, has a population of but 35,000,000 of people. Within these same limits, the number of people in 1801 was 26,000,000; so the increase has been but 12,000,000.

Such a small ratio of increase has made France fall from being the fifth part of Europe to the tenth. However, despite this showing, M. Roche hopefully points out that in "real superiority" France is not so backward. He lays claim to a greater inventive genius in France than can be found in any other nation of a like population. So that, after all, allowing his premise that mind is what counts, France is near the head of nations.

Every other European nation has made a large increase in population. England has jumped from 16,000,000 to 41,000,000; Russia from 36,000,000 to perhaps 135,000,000; the old German Empire to 56,000,000; Australia and Hungary from a like number to 45,000,000, and Italy from comparatively nothing, owing to its non-existence as a nation, to 32,000,000.

Even greater than the changes in the population of European countries has been the change in the reputed population of the world. Leaving the Americans out of consideration, "active humanity" one hundred years ago was less than 200,000,000. France dominated this number with one-sixth of its population. At this day it is estimated that the progressive peoples number 800,000,000, with the domination of France removed.

In counting the present day population of the world, it should be remembered that a century ago Africa was on the map as the "unknown land." Europe had no estimate of the population of Japan, India or other Asiatic countries outside of China, which then, as now, claimed to take a census. At that day, Chinese authorities announced that 333,000,000 people owed allegiance to the government.

STOLE FORTY-FIVE CENTS.

ONE ROUSTER CHARGED WITH ROBBERY ANOTHER AT TOM EMERY'S.

Robert Shelton, formerly a rouster on the steamer Avalon, was arrested last night on a warrant charging him with stealing 45 cents from the pants pocket of Walter McClelland, a rouster on the City of Clifton, while he was asleep in Tom Emery's saloon. The evidence was insufficient and the case was dismissed.

Shelton was at first believed to be the negro who broke jail at Hopkinsville and shot the jailer.

QUITE COMPLIMENTARY.

The Mayfield Monitor of Wednesday says: "One of the most novel and pleasing entertainments given here in a long time was that by the ladies of the Broadway Methodist church, Paducah, at the opera house Monday night. About thirty ladies were on the program, but twice that number were here from Paducah to witness the play, which has been given twice in that city. The ladies did remarkably well and were frequently applauded. All who attended seemed delighted and many so expressed themselves. The costumes were unique and everything was suggestive of the old maid. The performance was interspersed with piano, violin, cornet and vocal music. A golf drill by twelve hand-some young ladies was one of the features of the evening. Taken altogether the entertainment was a complete success and reflected great credit on all who were interested in it."

"Mrs. S. H. Winstead, the advance agent of 'The Spinsters' Return From Oklahoma,' is the right lady in the right place. She did fine work, and to her efforts, more than to those of any one person, are due success of the entertainment. She understands her business thoroughly, and, understanding it, goes about it in a business like manner."

CHICKEN THIEVES.

OFFICERS CLARK AND ORR TRACK THEM BUT LOSE THE TRAIL.

Chicken thieves, or one chicken thief, made a raid last night at Twelfth and Jackson streets, and stole a large number of chickens, most of which belong to Mrs. Thompson. Officers Orr and Clark were notified early this morning and went to the locality. They followed the tracks of one man in the snow through the alley as far as Tenth and Jackson, where they diverged, and were lost in many foot prints near Tennessee street.

MORE LIBELS.

THE GOLCONDA IS WORSE INVOLVED THAN EVER BEFORE.

Three more libels were today filed in the United States court against the steamer City of Golconda, which has been tied up here in the hands of Deputy United States Marshal LaFane.

The claims are J. R. Smith, \$75.31, W. H. Holcomb, \$24, and Sam M. Phelps, \$3.45.

WORKER PADUCAH MAN.

The St. Louis Globe-Democrat contains the following of interest to a young man formerly well known in Paducah, his home, and a brother of Mrs. W. A. Davis, of the city:

"Frederick Hippel, Jr., and Miss Katherine Long, both of Madisonville, Ky., were married at noon yesterday by the Rev. S. T. McKinney, pastor of the Union Congregational church. Mr. Hippel, who is a merchant at Madisonville, has been in St. Louis several days purchasing goods. He became lonely, and, longing to see his sweetheart, he decided to send her word to come at once and be married. The woman in the case was as lonely at home, with her lover away, so she readily consented. She arrived yesterday morning. The couple will remain in the city several days before they return home."

MARRIAGE LICENSES.

Mr. A. M. Elliott, of Lovelockville, aged 21, and Miss Nellie Purchase, aged 19, of the same place, secured license yesterday to wed today. Wm. B. Williams, aged 43, and Mrs. Ida E. Williams, aged 42, were married here last evening. It is the first marriage of the groom and the second of the bride.

PLAYED TONIGHT.

A game of basket ball will be played tonight at the Y. M. C. A. This is the third of a series of games that are being played and a great deal of interest is being manifested. Which will win this game, the Reds or Blues? Both ladies and gentlemen are invited and it is free.

SNATCHED A WATCH.

Norman Walpole was arrested at Mayfield yesterday on a charge of snatching a watch belonging to Will Harris, one of the proprietors of the railroad restaurant there. He claims Walpole simply snatched the watch and walked off with it, which the latter denies. The case is set for Monday.

THE RIVER NEWS.

Thomas Sanderson, aged 104 years, died yesterday on Big creek, near Madison, Ind. He helped to build the Erie canal.

The John K. Speed left New Orleans for the Ohio river Wednesday night. The Louisville Post of yesterday says: A thirty mile an hour gale, sweeping directly from the west, kept Louisville's beach in a turmoil yesterday afternoon, and the ferry steamers were compelled to run under full head of steam coming down, while they could almost float up stream. White caps four feet high held sway over the water's surface, and steamboats had tough hustling to crawl through and over them. Through inquiry failed to reveal any kind of disaster to floating property in this vicinity, however.

The City of Louisville in responding to a hail last Wednesday night while the wind was blowing a gale, struck the corner of a barge with a great force badly damaging her starboard wheel house. A table of five dozen pies was wrecked, but no other damage. That's the kind of pie that would make a printer's month water. Printers' pie 'ain't in it."

The rivers are all on a "tumble," and the upper Ohio is full of ice. Yesterday about 4 p. m. the heavenly elements opened the vents and showered the beautiful in blinding torrents, lasting until 11 p. m. The earth consequently is carpeted today in immaculate purity and a great many are taking advantage of the first sleigh ride of the winter. The snow is about 3 inches deep. Business rather quiet down on the wharf today and it looks very wintry in that direction.

We have been confined at home ever since last Monday with an attack of gripe and yellow jaundice, which explains the absence of our river news this week. However we are improving very fast and hope to be on "deck" again the first of next week.

The New South leaves Cincinnati tomorrow for New Orleans with one hundred ex-cursionists to New Orleans and return to Cincinnati.

The City of Pittsburg, from Cincinnati, is due tomorrow for Memphis.

The Joe Fowler arrived early this morning from Evansville with fair business. She departed on return trip at 10 a. m. with a good many people.

The Dick Fowler arrived last night at 9 o'clock with a large delegation of Elks from Cairo. They had a big time at Elks hall last night and left on return to Cairo on the Dick this morning at 9 o'clock.

The Tennessee last night brought out of the Tennessee river 100,000 feet of lumber for the Raymond Lumbar company. The Clinton is due today with a like amount.

The J. B. Finley, of the coal combine, said to be the finest towboat on the Ohio or Mississippi rivers, passed up yesterday morning for Cincinnati with an immense to of empties.

Capt. Arthur Peck has released his boat and will commence business again next week.

Capt. I. O. Ford is arranging to make extensive repairs on the hull of his packet, Key City, which has been running in the Paducah and Golconda trade as a tri-weekly packet.

Capt. Morgan, of the Conger, will have his boat ready to resume business again this week. Men are at work now on the wheel.

The Hudson left Memphis yesterday evening for Cincinnati. She will arrive here tomorrow.

The late General George B. McClellan, U. S. A., is credited with having made the statement many years ago that the sinking of clams into the sand along the ocean shore by closing their shells and ejecting the water from them in a thin stream, first suggested to him the use of the water jet as an aid in sinking piles in sand. In the United States, in the improvement of the Mississippi and Missouri rivers, large numbers of piles have been driven for the construction of the bridge and pile dykes and in the sinking of these piles the water jet has been in use since 1881. In 1861 the steamer Atlantic made the run from New Orleans to Hard Times Landing, a distance of 365 miles, in 24 hours. The late James Holmes, of Louisville, Ky., was engineer on her. Her hull was used by Captain Hi Reamer for a wharfbot at New Albany for many years, until one hard winter the heavy ice carried the Atlantic's hull away from the New Albany wharf. It was forced by the ice across the river below New Albany and turned bottom side up on the bank, where it can be seen in low water at the Riverside park.

Louisville Post: During a conversation relative to the proposed line of fine sidewheel steamers to ply between Louisville and New Orleans, last night, allusion was made to the fact that during the palmy days of river navigation there were two classes of big boats in the old line, one being the fast steamers and the other the six-day crawlers, as they were known. The latter included such boats as the Chancellor, Fanny Bullitt, Woodford and others of their type, and they

were the "buds of all jokes" because they could not keep up with the gale of the Baltic, Pacific, Diana, Atlantic and others, but at the end of the month, when the money was counted, the former were always in the lead, and their owners laughed at the other fellows. The Fanny Bullitt made more clear money than any steamboat that ever left this wharf before the days of the war. In one season she cleared \$210,000. As far as known there never was an estimate made of all her earnings, but it is known that she never made an unprofitable trip in her life. The Chancellor was a clean, pretty steamer, and was renowned as a family boat because so many wealthy families who were in no hurry patronized her. She lived aristocratically, as only the best kind of people attempted to get their names on her register. She was also noted for her land trips she made, as she loaded cargo at or to end and unloaded at the other, both ways, and it was the rarest thing that a passenger was taken up at a way landing or town.

PAINFULLY HURT.

DISPATCHER J. B. ALVEY FELL DOWN THE DISPATCHERS' OFFICE STEPS.

Dispatcher J. B. Alvey, of the Illinois Central, who goes off duty at 10 o'clock p. m., met with a painful accident as he started home last night. The steps that lead to the dispatchers' office in the second story of the building were covered with snow, and at the top he slipped and fell, falling to the bottom. His left shoulder was painfully sprained, but he was not seriously hurt.

A MOST ENJOYABLE TIME
Visitors From Cairo Royally Entertained
by the Paducah Lodge Last
Evening.

THREE CANDIDATES WERE INITIATED
Paducah lodge has cut another
notch in its long array of pleasant so-
cials. Last night the Cairo boys came
to town, and although the weather
was rather cold and unpleasant, the
reception tendered the crowd was as
warm and hospitable as could be wish-
ed. The Dick Fowler arrived about
8 o'clock and at the wharf was met by
the lodge, which had concluded its
business meeting and adjourned there
in a body, and the Carnival band, to
say nothing of the usual crowd of
eight seen.
A procession was formed and came
around Jefferson street past the Palm-
er house, thence to Elks hall.
The three victims of the evening
were Messrs. F. C. and Wm. Hoerber,
the brewery men, and Mr. James Mc-
Nulty. The Cairo Elks enjoyed the
superior work of Paducah lodge im-
mensely, and at the conclusion of
the ceremonies, Captain Henry Bail-
ley, in behalf of Mayor Pro Tem G. R.
Davis, and the police department,
tendered the Cairo visitors and Padu-
cah lodge the freedom of the city,
and told the boys to take what they
wanted and all of it they wanted, and
if there was anything they wanted
and couldn't find, to notify the city
and it would be furnished free of
charge. Wild applause greeted the
night captain's remarks.
The social session began about mid-
night, and Mr. Alvin C. Atkins was
chairman.
Refreshments and cigars were serv-
ed with the best of stories, musical
numbers, songs, and other forms of
amusement. Mr. Clarence L. Nich-
ols, of Cairo lodge, proved a whole
show in himself, and the others would
have willingly remained all night if
he had just kept talking.
There were about 200 in attendance
at the social, and the visitors were as
follows:
Messrs. Clarence L. Nichols, Cairo,
651; Chas. Fenchler, Jr., Cairo; Dan
L. Williamson, Cairo; Mr. Williams,
Cairo; F. J. Fitzgerald, Cairo; Doug-
las Halliday, Cairo; John W. C. Fry,
Cairo; P. H. Schulz, Cairo; Wm. H.
Mouray, Cairo; Arthur Herbst, St.
Louis N. 1; Lon Johnson, Owensboro;
Robert E. Read, Evansville; F. D.
Bristley, Hamilton, O.; G. W. W.
Wigan, Hamilton, O.; Jack Mann,
Shreveport, La.
The Cairo crowd returned on the
Dick Fowler this morning at 8 o'clock
very earnest in their expressions of
enjoyment of Kentucky hospitality.
They are a nice lot and have a cordial
invitation to come back at any time
and get all that's left.
Four members were initiated into
the Mayfield lodge of Elks Wednesday
night. Those initiated are Gus Cou-
ter, Robert Mahan, Tom Gardner, of
Terrell, Tenn., and a young man from
Hickman.

afternoon for stealing coal in the rail-

only picked up a few lumps, and they
were outside the track. He introduced
evidence showing a good reputation

quitted.

A GOOD DEAL OF NONSENSE
ABOUT "BLOOD PURIFIERS"
AND "TONICS"
Every drop of blood, every bone,
nerve and tissue in the body can be
renewed in but one way, and that is,
from wholesome food properly digest-
ed. There is no other way and the idea
that a medicine in itself can purify
the blood or supply new tissues and
strong nerves is ridiculous and on a
par with the fol-de-rol that dyspepsia
or indigestion is a germ disease or
that other fallacy, that a weak stom-
ach which refuses to digest food can
be made to do so, by irritating and in-
flaming the bowels by pills and cat-
harts.
Stuart's Dyspepsia Tablets cure in-
digestion, sour stomach, gas and
bloating after meals, because they
furnish the digestive principle which
weak stomachs lack, and unless the
deficiency of pepsin and diastase is
supplied it is useless to attempt to
cure stomach trouble by the use of
"tonics," "pills" and "cathartics,"
which have absolutely no digestive
power, and their only effect is to give
temporary stimulation.
One grain of the active principle in
Stuart's Dyspepsia Tablets will digest
3,000 grains of meat, eggs and similar
foods, and experiments have shown
that they will do this in a glass bottle
at proper temperature, but of course
are much more effective in the stom-
ach.
There is probably no remedy so uni-
versally used as Stuart's Dyspepsia
Tablets, because it is not only the
sick and ailing, but well people who
use them at every meal to insure per-
fect digestion and assimilation of food.
People who enjoy fair health take
Stuart's Tablets as regularly as they
take their meals, because they keep
their well: prevention is always bet-
ter than cure and Stuart's Dyspepsia
Tablets do both; they prevent indigestion
and they remove it where it exists.
The regular use of one or two of them
after meals will demonstrate their
merit and efficiency better than any
other argument.

And shriveled like an old man's

He sees no blue in God's blue sky;
He laughs at love whose heart is dry
He sees God's work and wonders why
Men call it wonderful or grand—
He laughs at love whose heart is dry
And shriveled like an old man's
hand!
He loves who has the heart to dare,
The wish to win, the will to do;
In him is manhood, strong and fair!
He loves who has the heart to dare,
Who has the strength to nobly bear
The sorrows Fate condemns him to!
He loves who has the heart to dare,
The wish to win, the will to do!

That said steamer is justly in-
debted to them in the said sum,
that same has never been paid,
and prays process, against said
steamer, and that it be condemned
and sold to pay said claims,
with costs and expenses. Now,
therefore, in pursuance to the
monition under seal of said court, to
me directed, I do hereby give public
notice to all persons claiming the said
steamer City of Golconda or in
any manner interested therein,
that they be and appear in the dis-
trict court of the United States in
the city of Paducah, Ky., on or be-
fore the 1st day of April, 1901, at 10
o'clock in the forenoon of that day,
and then there to interpose their
claims, and to make their allegations

LARGE SIZED BUILDINGS.

BRIEF DESCRIPTIONS OF THE WORLD'S GREAT STRUCTURES.

The largest building ever erected was the temporary structure known as the Manufacturers and Liberal Arts building at Chicago, 1893. It was 787 feet wide, 1,678 feet long, and 203 feet high, covering thirty and a half acres, and had 44 acres of floor space, including galleries.

The tallest structure, compared with the size of the building, is the hill of the terraces of white ants of Africa. If the house of men were proportionately lofty, the humblest residence would be a mile high.

The largest dwelling house in the world is the Prius, in a suburb of Vienna, containing in all between 1,300 and 1,500 rooms, divided into upward of 400 separate apartments. This immense house, wherein a whole city lives, works, eats, sleeps, and has thirteen court yards—five open and eight covered—and a garden within its walls.

The tallest building in Chicago, if not the world, is the Masonic Temple, 602 feet high, twenty stories high, costing \$3,000,000.

The largest place of amusement ever built was the Coliseum at Rome. It has a circumference of 1,728 feet, with long diameter of 615 feet; short, 810 feet, and a height of 156 feet. It had a seating capacity of 87,000 and standing room for 60,000 more.

The Texas capitol is the largest state building in the United States, and the seventh in size among the buildings of the world. It is a vast Greek cross of red Texas granite, with a central rotunda covered by a dome 811 feet high. It was begun in 1881 and finished in 1888, having cost about \$3,100,000.

The highest regularly occupied building in the world is the Philadelphia city hall, which measures 545 1/2 feet from pavement to the top of the tower. The tower of the cathedral of Cologne is 511 feet high, the length of the cathedral is the same as its height, while the width is 331 feet.

The largest private house in America was built in 1893, by Dr. Seward Webb, of New York Central railway, a relative, by marriage of the Vanderbilts, and is located in the Adirondacks of New York. Estimated cost, \$1,500,000; 107 rooms. The material is granite, and the edifice covers nearly half an acre.

The largest and costliest private mansion in the world is that belonging to the late Lord Bute, called Bute House.

stuart, and situated near Rothesay, England. It covers nearly two acres; is built in Gothic style; the walls, towers and balconies are built of stone. The famous tower in the center of the building is 120 feet high, with a balcony around the top. The halls are constructed entirely of marble and alabaster, and the rooms are furnished in mahogany, rosewood and walnut. The fireplaces are all carved marbles of antique designs. The exact cost of this fairy palace is not known, but it has never been estimated at less than \$5,000,000.

The largest room in the world under one roof and unbroken by pillars is at St. Petersburg. It is 620 feet long by 150 in breadth. By daylight it is used for military displays, and a whole battalion can completely maneuver in it. By night, 20,000 wax tapers give it a beautiful appearance. The roof is a single arch of iron.

The largest cathedral in the world is St. Peter's, at Rome, on the site where it is said St. Peter was interred. The total length of the interior is 612 1/2 English feet, transept, 446 1/2 feet; diameter of cupola, 193 feet; height of dome from pavement to top of the cross, 448 feet. It was begun in 1450 A. D., dedicated in 1626, but not finished until 1880. Forty-three popes lived and died during the process of building. The cost is set down at \$70,000,000.

The Beaver came up last night from Cairo and is over at the island.

IN COURT OF APPEALS.

Frankfort, Feb. 22.—In the court of appeals today the case of the Mayfield Woolen Mills vs. City of Mayfield was submitted. Mills vs. M. S. Keel, Graves county, petition for rehearing overruled.

Oil Heaters, Scott Hardware Co.'s kind are the best.

LITTLE HOPE.

Tuscaloosa, Ala., Feb. 22.—The fate of the thirteen negro miners entombed in the Asylum mines yesterday afternoon by a rush of water from an abandoned shaft is still problematical. The rescuers have been unable to make any headway in pumping out the water, as the mine fills as rapidly as it is pumped.

Dr. W. H. Whitsett, formerly president of the Southern Baptist Seminary, Louisville, will probably be elected chancellor of the Peabody Normal college, at Nashville, Tenn.

Scott Hardware Co. sell sleds at 35c.
